Najdi, co do řady nepatří.

Viš, jak vypadá naše planeta? Znáš názvy jiných planet? Vezmi si pastelku a zkus namalovat další planety ve vesmíru.

4. Slunce je naše nejbližší hvězda, dává nám světlo a teplo a díky ní žijeme. Z blízka je ale Slunce pekelně horké. Kudy se má Qark vydat, aby ho obletěl a nespádl do něj?
